Attached for your review and comment is a draft of a proposed LI which will formally establish a Safety and Health Program within the OL. I would appreciate each Committee member carefully reviewing this draft, especially those portions pertaining to the responsibilities of his own component, and submit any suggested changes, additions, etc. to me by 25 February 1980. This draft has already been reviewed and edited by

*Bob,*

*Per our discussion I noticed that RECD, CD, PEPD and LSD are all changed with maintaining shop etc info on accidents while OL Security Staff is not. Not sure whether this was an omission or perhaps intentionally deleted. Perhaps Security Staff already compiles this type of info for all of OL. I have no other suggestions or recommended changes*

FROM:

25X1

SUBJECT: Proposed LI Establishing a Safety and Health Committee

We have received the attached proposed LI and have no problems with it. The only suggestions we do offer is that the Component Safety Officers get together quarterly to compare notes, new ideas, peculiar problems, etc.
